ט'סב

January 7, 2008

Dear Parents,

We are pleased to announce that the registration for the 2008/2009 school year is currently underway, and look forward to having your children in school next year. The Young Israel Shomrai Emunah Nursery School has for more than 30 years provided our children with a warm, caring and nurturing environment and we anticipate continuing that tradition for years to come (I"V).

Although the Nursery School's fees and tuition needed to be raised this year, as a result of increased costs, its fees are still lower than comparable programs serving our community.

Payment policies have been formalized in order to ensure that the school remains solvent. We cannot offer credit card payment as a means of paying tuition because of the high transaction costs.

The Nursery School is proud to provide our community with a warm, caring, heimeshe environment for which we are renowned. With the support of the shul and Rabbi Anemer, the Nursery School feels privileged to educate your sons and daughters, some of whom include children of our former students. We trust that your support will enable us to continue that tradition and look forward to embracing your children next year.

Sincerely,

Shani Leiman  
Director

Hildi Fishman  
Chair
